Against Road Supervisors.**

UNIONTOWN, July 14.—Attorney Lee B. Brownfield was refused the transfer of the Victoria Hotel license in New Haven by the court, which will result in the hotel remaining closed as it has been for some time. Attorney Brownfield was appointed referee in bankruptcy upon the closing of the hotel by Proprietor Bernard O'Connor. He asked the court's permission to open the hotel and run it for the benefit of the creditors until the sheriff's or trustee's sale was made, but the court would not agree to this. The sale is scheduled to take place July 24, but it is said that a continuance will probably be allowed and it is impossible to say how long the hotel will be closed.

A rule was granted this morning in the Range Hotel at Fairchance to decide the ownership of property in the hotel. When license was refused the hotel and it was closed by Proprietor Range a large number of executors were issued against it. A number of items claimed goods in the hotel which were to be sold at Sheriff's sale and the sale was postponed owing to the mix-up. The rule allows the owners to prove their property and if it is right belongs to them they will be allowed to remove it, after which the sale will be made.

William A. Boring, who has been tipstaff at the court house for many years, was this morning on recommendation of the law committee appointed law librarian at a salary of \$40 per month to succeed the late Joseph M. Ostrowsky.

J. W. Sullivan, brother and wife of Redstone township were directed to file a more specific statement of claim in their suit brought against the road supervisors of Redstone township. The plaintiffs claim damages for a bad road between Smock and Brumfield, and claim that by reason of it Mrs. Sullivan was thrown from a buggy and permanently injured.

Frank Rock of Brownsville, convicted of carrying concealed weapons, was sentenced to pay a fine of \$75 and costs or six months to the workhouse.

George Mask of Uniontown, convicted of larceny of \$37.50 from his boarding boss, was sentenced to the workhouse for three months.

They are Mike Gault, John Sherrick, John Hankford, Yaco Tenechich, Thomas Tenechich and Charles Debaugh.

The constable claims that these men last Sunday secured an extra large supply of beer and that going into the woods near the town made an unsightly and highly demoralizing exhibition of themselves.

Dominic Poca, agent for the Mastontown Brewing Company, is charged with violating the liquor laws in his selling the beer, not in strict conformity with the rules and regulations laid down by the court. The men will be given a hearing before Judge Davidson of South Union township.

Duffey this morning stated to Burgess A. D. Solson that he had missed the last car and was sitting under the bridge. He said that he did not know the woman and had never seen her before. Duffey stated that he was not committing any wrong when arrested as he was only conversing with the lady.

The Cooper woman stated that she and her friends had taken supper at Dunbar's as it was usually her time to eat and that the two were sauntering along Water street when they were caught by the police. She admitted having several drinks, but did not think that the hour was improper to be walking about with a man that she did not know very well.

Judge Boyd's Opinion Sustains Drys Who Carried the Town by One Majority.

FRIENDSVILLE, July 14.—Chief Judge A. Hunter Boyd rendered an opinion in the case of Mitchell Brothers of Friendsville and E. C. Hise of Accident vs. E. Z. Tower, Clerk of the Court of Garrett county, in deciding that the vote in Friendsville where the citizens of that town decided that liquor should not be sold within the corporate limits of the town was legal and upholding the constitutionality of the law passed at the recent session of the Legislature prohibiting the sale of liquor within a certain prescribed distance from any church or school house within the county.

Mitchell Brothers of Friendsville sought to compel Mr. Tower as Clerk of the Court to issue them a license to sell liquor at Friendsville, declaring in the papers filed in the mandamus case that the vote was illegal and that the citizens of that town had decided that liquor should not be sold within the corporate limits of the town was legal and upholding the constitutionality of the law passed at the recent session of the Legislature prohibiting the sale of liquor within a certain prescribed distance from any church or school house within the county.

Mr. Hise by mandamus also sought to compel the clerk to issue him a license to retail liquor at Accident, attacking the constitutionality of the law passed last winter prohibiting the sale of liquor within a prescribed distance from any church or school building. The court in this case, as in the Mitchell case, decided for the defendant.

## HOUSE WORK

Thousands of American women in our homes are daily sacrificing their lives to duty.

In order to keep the home neat and pretty, the children well dressed and tidy, women overdo. A female weakness or displacement is often brought on and they suffer in silence, drifting along from bad to worse, knowing well that they ought to have help to overcome the pains and aches which daily make life a burden.

It is to these faithful women that LYDIA E. PINKHAM'S VEGETABLE COMPOUND comes as a boon and a blessing.

As it did to Mrs. F. Ellsworth, of Mayville, N. Y., and to Mrs. W. P. Boyd, of Denver Falls, Pa., who say:

"I was not able to do my own work, owing to the female trouble from which I suffered. Lydia E. Pinkham's Vegetable Compound helped me wonderfully, and I am so well that I can do as big a day's work as I ever did. I wish every sick woman would try it."

**FACTS FOR SICK WOMEN.**  
For thirty years Lydia E. Pinkham's Vegetable Compound, made from roots and herbs, has been the standard remedy for female ills, and has positively cured thousands of women who have been troubled with displacements, inflammation, ulceration, fibroid tumors, irregularities, periodic pain, backache, bearing-down feeling, flatulency, indigestion, nervous prostration, etc.

Why don't you try it?

Mrs. Pinkham invites all sick women to write her for advice. She has guided thousands to health. Address, Lynn, Mass.

## CIRCULATION CLAIMS AND CIRCULATION FACTS.

The circulation claims of some of our esteemed Fayette county contemporaries are more unusual than instructive.

The Uniontown Herald carries upon one of its first pages the following broad statement: "Largest circulation of any paper in Fayette, Greene, Westmoreland or Somerset counties."

The Uniontown Genius, its Slamese Twin, in glaring type at the very top margin of its front page carries this legend: "Make a Note of It. The Evening Genius is read in more homes in Uniontown and vicinity than any other evening paper in Fayette county—and it can prove it."

The Connelville News still flies this confident assertion in black type at the head of its editorial page: "The paid circulation of The News in Fayette county is the largest of any paper published. Circulation books open to all."

None of these claims are accompanied by figures or substantiated by affidavits. They are unproven claims. They are worse. They are, so far as they are The Herald and The News are concerned, bald bluff.

The Courier is the Fayette county newspaper of widest circulation, and it is the only one that presents the figures to prove it. The others, though often challenged, have either evaded the issue or refused point-blank to meet it. One of them once accepted the challenge, but it didn't have any circulation books and it couldn't show any circulation. It has since been occupying its time in trying to get a circulation, but it has not yet produced the figures for it.

Merchants who buy space prefer to be shown. It has always been the policy of The Courier to show them, and that is the only honest policy. We commend it to our contemporaries.

## THE BAD HABIT OF BUTTING IN.

Whether through the sociability that dreams not of denial the curiosity that is impelling, or the thirst that snatches the extracts of eye and bailey from afar off and panthor for the same, it remains a sometimes sad and melancholy fact that the foreign inhabitants of the coke region have a habit of "butting in" upon the festivities of their neighbors with results that are disturbing to the public peace and dangerous to human life.

In the interest of peace and order, this exuberant and effervescent spirit of sociability must be discouraged by the law as firmly, though perhaps not so strenuously, as it is by hosts and invited guests.

## AN UNBIASED OPINION OF CANALIZATION.

The canalization of the Youghiogheny river has but one objection offered to it and that objection is the rapid fall of the river for a short distance above West Newton.

It does not seem possible that the engineers of today are less bold in conception and execution than those of the early years of the last century. For instance, the distance between Harpershead, N. Y., and Seneca Lake is about twelve miles. The distance in elevation between them is approximately eight hundred feet. About sixty years ago a canal was built and successfully operated between the two places for many years and millions of tons of coal were shipped on it. It was finally abandoned some years ago when the coal companies built a railroad between Canajoharie and Seneca.

It is safe to say that there is not that much fall in the Youghiogheny river between McKeesport and the West Virginia line. The opponents of the project to canalize the river will have to raise some stronger objection than that of too much grade before they can hope to successfully combat it.

The recent shipments of water from manufacturing plants in Charlot and near-by towns are but a drop in the bucket compared to what will follow when a nine-foot canal is established between Pittsburg and Cairo.

The Mail is practical. What has been done before, it thinks with reason, may be done again. Besides, there is the water power development with its possibilities for manufacturing power. The canalization of the Youghiogheny river is neither impossible or impracticable, and the Connelville and New Haven people will endeavor to demonstrate the fact to the Board of Engineers of the War Department when they come here.

## HEATED IMAGINATION.

The hot wave has heated the imagination of the Official Organ of the Yough Democracy. It says: "The selection of two candidates west of the Alleghenies and the adoption of a platform plank which denounces some of the financial methods of the past indicate clearly that the Democrats do not intend upon Wall Street for support this year."

Inasmuch as the Official Organ is also a self-appointed official censor of newspaper spelling, punctuation, grammar and syntax, we feel in duty bound to interpret its carefully selected editorial sentences with great exactitude, and in so doing we must assume that while Wall Street will not support the Democrats this year it has done so in the immediate past.

This is a terrible revelation. It is possible that the Democratic party has, during the past dozen years, been receiving aid and comfort from the Money Devil whom its People's Leader has lost no moment in denouncing.

Everything is possible in politics. But does the Official Organ of the Yough speak for the Democratic party of the Whole Country?

## THE REVIVAL OF THE NEW COUNTY PROJECT.

The new county project is again agitated by some of the Monongahela valley newspapers, notably those of Charlot. The storm of protest which the proposition has aroused leads one to suspect that the Charlot purveyors of publicity have a keen appreciation of the benefits of free advertising and a ready wit in working their own temporary gain.

The Knox county project is absurd. It won't receive as much consideration at Harrisburg as Knox himself received at Chicago. There were never any serious arguments advanced in its favor. Perhaps the most weighty was the inconvenience to the citizens of the Monongahela valley of the coming of its Washington, Westmoreland, Allegheny and Fayette, but even this is in a large measure now removed by the growth of the trolley systems.

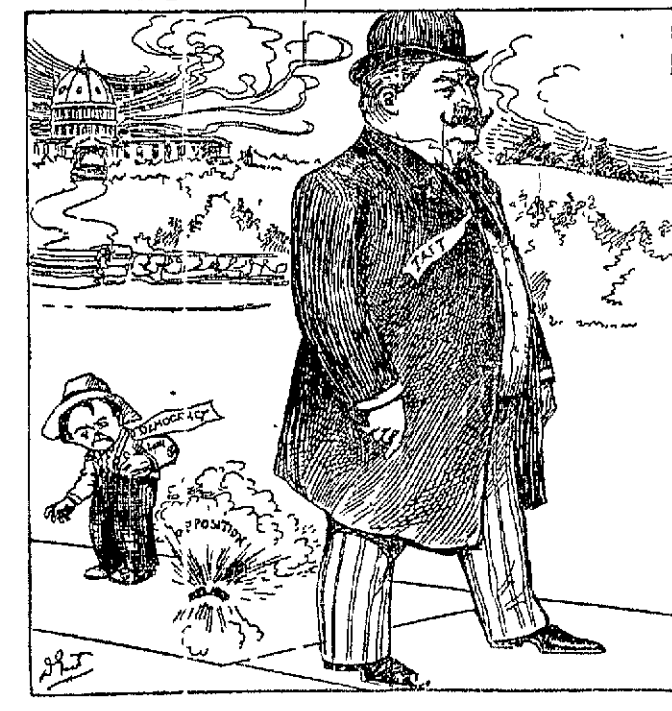

The movement, moreover, lacks cohesion from the fact that there are too many rival applicants for the county seat. This alone would be sufficient to destroy the whole fabric if it rested on reasonably safe foundations. The new county talk is amusing, but not disturbing.

## BLACK HAND LETTER WRITERS.

The allegation that a Connelville policeman sent Black Hand letters to himself as well as to others may or may not be true, but it suggests the possibility that many such letters are written in much the same manner and with much the same intent.

In some instances schoolboys have been the authors in others cheap notisly has been the object. In many the hand of the practical joker has been traced.

It is, however, a bad practice an uncertain and devious way to lure and a very poor joke. Some of the letters have been written by scoundrels and murderers who would kill as well as rob. The fact is sufficient justification for the judgment pronounced upon those who indulge in the practice from motives less culpable.

## COKERS BY WINNING TWO GAMES GO UP STEP IN PENNANT RACE.

By coping both games of a double header yesterday afternoon with the Fairmont Babies, the Cokers jumped into third place with possibilities of going higher. Scores 2-1 and 5-2. The first game was Blanchard's thirteenth since joining the Coker outfit. Of the 13 he has won 11. In the second contest Johnny Yoodt, late of the Ontons, assumed the mound and led the Babies down with five bingles. Klug was on the mound for the visitors and held the locals safe until the eighth inning, when the Cokers suddenly connected with his delivery for three hits, which coupled with two errors and a base on balls, gave the Cokers five runs and the game. Jackson was out of form in the first game and had poor control. Arundel, the new umpire from the Central League, officiated, and, although he nearly banded the contest to the West Virginians in the second game, gave general satisfaction.

Blanchard pitched in his usual form in the first game and as a result the Babies didn't have a look-in. Fairmont crossed the plate in the second inning and it looked like their game. Good willow work by Jacobson, Sweeney and Blanchard did the score in the Cokers' half of the second. Jacobson, who connected in this game for three safe drives, led off with a pretty single, Francis bunted and Tiffany popped one up to short. Sweeney drove Jacobson in with a single and Blanchard followed it up with one to right. Price drew a base on balls, filling the cushions. Montgomery was not there, however, this time, and forced Price at second.

McCombs made a pretty muck of Ellam's fly in the next round and was sacrificed to second. Jacobson again connected and Ellam crossed the plate with the winning run. Two fast double plays by the locals were the features of the game. The score:

It looked like a lost game in the second contest, but timely slick work in the eighth drove in five runs and the game. Yoodt, with seven errors in the field behind him, won his game. Neibinger for the West Virginians, had three mistakes, two of which were on the costly error. Fairmont started off with one run by way of a walk, a sacrifice, an infield out and a single. In the lucky seventh the Babies made their last and supposed to be winning run. But it proved otherwise.

In the eighth Sweeney led off by having four pitched balls thrown anywhere but over the plate. Johnny Yoodt helped to win the game by shoving a single through the infield. Price slammed a hot one to Neibinger, who fumbled, placing three on the cushions. Montgomery pushed a timely single through second base, which scored Sweeney and Yoodt. Montgomery went to third on Ellam's infield out and came home when Birmingham planted one to left for three sacks. Jacobson scored him by sending one to Neibinger, who again made a muck. Jacobson stole second, but died there. The score:

Connellsville is going up again. Third place looks good, but we might as well go up a little further. Eight point separate the Cokers from the Cherubs and 45 separate the Drummers from the locals.

### If Your Tailor Offered You These Values, You Would Jump at Them.

These are the best tailored  
Suits you've ever seen at  
anywhere near the price.

A local tailor could not put the style these garments possess, into a suit at this little price—long, loose fitting, perfect hanging coats—peg trousers cut with a precision that insures a perfect and lasting fit. The picture to the left is an exact reproduction of one of these suits, and you may judge from this as to the style and cut of the garments we offer you any fancy suit in the store formerly priced at \$15.00 for \$8.95. This offer deals with clothing made after our own specifications by a leading Rochester Clothing manufacturer.

The only reason why so radically lowered a price is quoted is that every size is not here in every pattern, but every size is here in one style or another. These clothes were made by Alfred Benjamin & Co. of New York City, and are absolutely authentic in style of fabric and design.

### Tomorrow We'll Sell 50c Neck- wear at 35c

No reason on earth for selling the Neckwear at a reduced price only that we start our inventory next week and it's easier to count money than neckwear. Every necktie here is of a durable quality of silk and in designs that will meet with the approval of those with knowledge of correctness in design. It will be displayed on the men's aisle at 35c. Not an undesirable pattern in the whole lot.

### Entire Stock of Straw Hats Half Price.

Just how good this offer is can be better judged by you when we tell you that every straw hat we sell is bought directly from the man that made them—no intermediate profits. It means that a hat priced regularly by us \$2.00 bought through jobbers would be \$2.75. This same \$2.00 hat can be bought for \$1.00, so liberally (you who have been buying your hats in small stores) may now get a \$2.75 (their value) for \$1.00 (our price). Its worth investigation at least and if we don't prove every assertion we'll give you a hat. Every desired style is here in your size.
